## Our New Varieties

We are again presenting to our customers ten new varieties listed below. This is the second year that these seedlings are offered to the public, and you will notice at a very moderate price. We do not hesitate in stating that they are real beauties and that within the next few years some of them will become as popular as our others seedlings now known throughout American and foreign countries, such as Chateau Thierry, Orange Prince Vos, Morning Glory, Maine, Mrs. Peter Vos, General Joffre, Wolverine, Miss Christina Treur, Nebraska, Radium, Primulinus Hybrids, and others.

Our supply is as yet limited and we therefore would urge our customers to place their orders for immediate or future delivery upon receipt of this catalog.

## Vos High-Crowned Bulbs

It is a proven fact that the coming blind of forced Glads, Narcissi and Tulips is caused by cutting flower spikes deep for commercial purposes. For this reason we have refrained for several years from cutting flowers for summer sales in order to maintain the greatest possible vitality for winter forcing.

We guarantee all bulbs true to name and free from disease.

Many customers were disappointed during previous seasons because of the tremendous shortage of bulbs. We therefore urge you very strongly to place your spring requirements early. Such orders will be carefully selected and reserved for spring delivery.

Chateau Thierry

*Chateau Thierry*

This is one of the best seedlings ever produced by our Mr. Peter Vos. Flowers grown from a good sized bulb will actually measure five inches across and its brilliancy is so attractive that it was awarded both first and second prize at the A.G.S. and M.G.S., 1927. We feel very proud of this variety and we have no doubt that those of our customers that have not already tried Chateau Thierry will do so the coming season.

Glory of Kennemerland

*Glory of Kennemerland*

Completely sold out every season. It is the hardest job for us to maintain enough planting stock so as to supply the demand for this popular flower. It is unique in color and a very wonderful cut flower. If you contemplate buying, orders must be placed at once as the stock is again very limited.

General Joffre

*General Joffre*

We can take on very few orders this year. This wonderful large red Gladiolus gives us more trouble than any other variety because we are unable to keep back sufficient planting stock to supply our trade and indications are that we will have to keep it from our Catalog a year from now in order to re-stock on this variety.

*Maine*

During the last two seasons we have turned down many orders for this variety due to the fact that we were sold out on the larger sizes. Our Maine needs no introduction as it is already known to Gladiolus growers everywhere and they all concede that, if not the best, it is one of the very best of all the white varieties ever sold. This variety is wonderful as a cut flower as its substance is unequalled by any other variety.

Note: We unhesitatingly recommend this Mixture to our customers as this is not inferior to the regular bulbs offered in this Catalog, but is made up of several yellow and Bicolor trumpet varieties.

We wish to remind our customers that we purchased a large quantity of Poetas Triumph for the American florists because it gives two flowers to each bulb, and by early planting is ready for cutting about the 1st of February. It is much better than Paper White Grandiflora which produces only one flower to the bulb, and the Triumph cluster of flowers is also much larger than the Paper White.
